A full-length portrait of a man with dark, wavy hair, looking directly at the camera. He is wearing a crisp white long-sleeved dress shirt with a pointed collar and a chest pocket, a blue and white diagonally striped tie, and grey trousers with a black belt. His hands are in his pockets.

Men's Non Iron Shirts

If you're the kind of guy that
hates ironing work shirts,
you'll love these non-iron
shirts from Kustom Kit that will
keep their crisp appearance
throughout the day.

A close-up photograph of a brown fleece jacket. The jacket is partially unzipped, showing the zipper teeth and a metal pull tab. A small, light-colored label is attached to the inside of the jacket, featuring the word "GRIZZLY" in bold, black letters, with "XL" and "KK901" printed below it. The fleece material has a soft, textured appearance.

GRIZZLY®
XL
KK901

When you're feeling the chill, slip on a Grizzly fleece. These soft and luxurious jackets feature superior 300gsm anti-pill fleece to give the ultimate in warmth, comfort, hardwearing performance and outstanding value for money.

Caring For Your Kustom Kit Garments

All you need to know (and perhaps a little bit more!) on how to preserve the look, feel, fit and wear of your Kustom Kit garment.

Garment Fibre Properties

Cotton:
Absorbent, strong, washes well with care.

Lycra® & Elastane:
High stretch recovery with good shape retention.

Polyester:
Durable, easy care, good shape retention.

Washing

Always look for the garment care label and follow the washing instructions. Washing machines, powders and fabrics are specially manufactured to ensure that when washed at the right temperature your clothes will come out looking their best time after time.

The washtub symbol tells you the washing process to be used.

 60° Washing Symbol Spin Cotton Cycle

 60° Washing Symbol Spin Synthetic Cycle

 40° Washing Symbol Spin Cotton Cycle

 40° Washing Symbol Spin Synthetic Cycle

- Before washing, close all zips, undo buttons and flatten out collars and cuffs. Check pockets and linings for loose or sharp objects.
- Turn garments inside out to reduce abrasion so avoiding contamination by fibres from other garments during the washing cycle.
- Always read the label for correct washing temperature.
- Do not overload the washing machine.
- Always use the correct amount of detergent depending on how dirty the garments are.
- Check garments regularly for marks or stains and remove as soon as possible. See our Stain Removal guide.

Drying

Always check the care label to see if a garment can be tumble dried. When tumble drying the following is recommended:

Garment Type	Drying Time
Cotton	50-100 minutes
Cotton Polyester	35-55 minutes
Heavy Synthetics	45-65 minutes
Light Synthetics	30-40 minutes

In cases where tumble drying is not appropriate, there will often be alternative drying methods suggested such as dry flat or drip dry.

-  Do not Tumble Dry
-  Dry Flat - Re-shape Whilst Damp
-  Drip Dry

- Re-shape whilst damp, by gathering the hem in one hand, holding the shoulders in the other and pulling back into shape.
- When line drying shirts or jackets, always hang from the tail.
- When line drying knitted garments, always fold over the line and position pegs at the under arm.
- When line drying trousers or skirts, always hang from the waist.
- Do not leave clothes exposed to the sun after they have dried.
- Avoid drying garments on radiators or in intense heat as this could distort the shape.

Ironing

The iron symbols advise the optimum temperature at which to iron. The dots represent the recommended iron temperature - the more dots the hotter the iron.

 Iron Symbol with one dot - up to 110° (Cool)

 Iron Symbol with two dots - up to 150° (Warm)

 Iron Symbol with three dots - up to 200° (Hot)

 Do Not Iron Symbol - Do not Iron/Steam treatment is not recommended

- Iron each garment on recommended setting as per the care label.
- Do not iron directly onto a printed logo. Always iron on the reverse.
- When ironing dark garments avoid 'iron shine' by either pressing on the inside of the fabric or through a damp cloth. This is not applicable if using a steam iron.
- Do not iron over buttons, try to press around them. If you do break one, an extra is included on the care label.

Common Wash Problems

Shrinkage:
The major factors contributing to shrinkage are heat and excessive agitation. Do not wash at too high a temperature. Always wash on the most appropriate cycle and follow the care instructions.

Pilling & Bobbling:
Abrasion and lack of regular washing cause fibre balls to appear on the surface of the fabric. Remove by carefully brushing or picking off.

Fading in Sunlight:
Sunlight can be very harmful to fabrics and the effects are irreversible. Reduce exposure to direct sunlight wherever possible. Colour Staining: Always wash similar colours together. Never leave damp garments together for any length of time.

Stain Removal

Most stains can be removed by soaking in cold water as long as the fabric is washable, but as with all stains, prompt attention is important. Do not use hot water to rinse the stain as it may cause it to set. Place the stain to be removed over an absorbent cloth or wad of kitchen paper. In order to avoid a ring, first target the area around the stain and then work towards the centre, preventing it from spreading into the fabric.

Always test the removal method on a hidden part of the garment first to ensure that it does not harm the fabric.

Ball Point Pen:
Apply methylated spirit or glycerine sparingly and mop up any loose colour. Rub any remaining stain with detergent and wash as per the care label.

Blood, Gravy, Ice-cream, Egg, Chocolate:
Soak the stain in cold water and salt or in warm soapy water and then wash immediately as per the care label.

Coffee & Tea:
Soak up liquid with an absorbent cloth and sponge with warm water. Rinse with cold water and wash as per the care label.

Fat, Grease & Oils:
Remove as much of the deposit as possible and work in neat washing up liquid with fingers. Treat with warm water and then wash immediately as per the care label.

Make-up:
Do not rub the stain. Pat with talcum powder to soak up any grease and then work in neat washing up liquid with fingers before washing.

Perspiration:
Sponge with weak solution of water and vinegar then rinse. Launder as per the care label.

Beer & Spirits:
Rinse or soak the stain in luke warm water and then launder in heavy duty detergent as per the care label.

Wine:
White Wine - rinse the stain in warm water then soak in a warm detergent solution.
Red Wine - first soak the stained area immediately in white wine or soda water to remove the colour, then launder as per the care label.

Technical Definitions

Adjustable cuffs

Dual buttoning on cuff giving optional fastening for extra comfort.

Anti-pill

The surface of the fabric is treated to reduce the possibility of pilling.

Combed cotton

Yarn is combed at the spinning stage in order to draw out dead fibres.

Comfort finish cuff seams

Cuff seam is sewn flat for added comfort.

Drop tail

The garment is longer at the back to ensure it stays tucked in when required.

Double folded seams

The seam edge is folded twice sealing the seam and adding strength.

Double roll tip collar and cuffs

The collar and cuff edge is knitted with double thickness in order to retain a neater shape.

Easy iron

A special finish to the surface of the fabric which reduces creases and minimises ironing.

Fitted

A shaped fit both feminine and sleek enough to be worn under a jacket.

Flat knit collar

Individually knitted to size, will not fray or curl.

Flat lock stitching

Decorative top stitching.

Fused collar

An interlining is fused into the collar to help retain its shape.

Half moon yoke

Styling detail sewn on to the back neck of the garment.

Reinforced shoulder

Tape inserted into the seam giving extra strength.

Self fabric bound neck

The fabric is passed through a folder to neaten the neck edge ensuring improved neck shape and comfort.

Semi fitted

Garment features soft tailoring to the waist and hips for easy layering.

Side vents

Small opening at the base of side seam for a comfortable sporty look.

Slanted placket

Corner of placket is slightly tapered to prevent curling around the collar.

Superwash 60°

A hi-tech fabric that allows the garment to be washed up to 60° for the removal of stubborn stains without affecting shape or colour.

Taped back neck

Self fabric tape attached to the neck giving a smooth and comfortable finish.

Taped side vents

Side vents are sealed with woven tape for extra strength.

Twin needle stitching

Two rows of stitching at key seams for strength, style and neatness.

Ethical Statement

Kustom Kit adopts a rigorous selection process for garment manufacturers ensuring only those that are totally committed to exceeding our high ethical standards become appointed suppliers.

We recognise and honour our duty to protect the workforce used in the manufacture of Kustom Kit garments.

Each appointed manufacturer must conform to the following terms as a minimum requirement:

- Children must not be employed below the legal minimum age required by the law of the individual country.
 - Employees are to be paid no less than the legal minimum wage as required by the law of the individual country.
 - Working hours must not exceed those set out by local legislation and overtime must be voluntary.
 - Maternity leave must be made available to all female employees.
 - Good working conditions must prevail. The provision of adequate wash room facilities and a canteen are essential.
 - Primary medical care must be provided on site.
 - Living accommodation should be provided to staff where necessary.
- To ensure continued compliance, our manufacturers are frequently inspected and reported upon by local independent agents.

As a further safeguard, unannounced inspections are regularly made by Kustom Kit senior management.

Kustom Kit is also dedicated to protecting the environment and purposely seeks out suppliers who take positive action to minimise both waste and the impact of their manufacturing processes on the surrounding environment.
